**INDEPENDENT AUDITOR'S REPORT**

---

Members of the Board:

**Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Campbell Independent School District (District), as of and for the year ended August 31, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

**Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

**Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

**Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Campbell Independent School District as of August 31, 2018, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

**Change in Accounting Principle**

As discussed in Note Q to the financial statements, in 2018 the District adopted various accounting pronouncements issued by the Governmental Accounting Standards Board including GASB No. 75, Accounting and Financial Reporting for Postemployment Benefits Other than Pensions. Our opinions are not modified with respect to this matter.

**Other Matters**

*Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

*Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements as a whole. The schedules identified in the table of contents as other supplementary information are presented for the purpose of additional analysis, and are not a required part of the basic financial statements.

The other supplementary information schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

**Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated January 8, 2019, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON  
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS  
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

---

Members of the Board:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Campbell Independent School District (District), as of and for the year ended August 31, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated January 8, 2019.

**Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Report on Internal Control – Continued

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

CAMPBELL INDEPENDENT SCHOOL DISTRICT  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
YEAR ENDED AUGUST 31, 2018

This section of Campbell Independent School District's annual financial report presents our discussion and analysis of the District's financial performance during the year ended August 31, 2018. Please read it in conjunction with the District's basic financial statements, which follow this section.

**FINANCIAL HIGHLIGHTS**

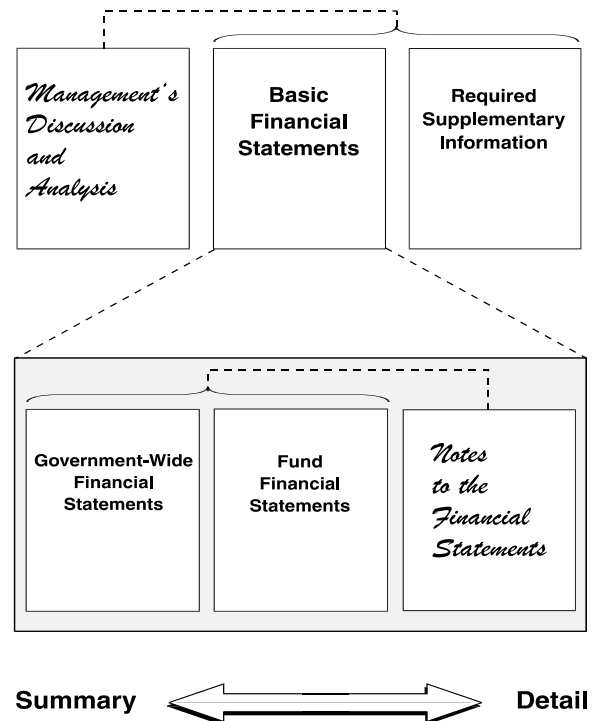

- The District's total combined net position was \$ 3,185,641 at August 31, 2018.
- During the year, the District's expenses were \$ 578,870 less than the \$ 3,340,981 generated in local property taxes and other revenues for governmental activities.
- The total cost of the District's programs decreased from last year as the District implemented GASB 75 in the current year. The implementation caused a significant reduction for OPEB plan changes which are reflected as decreases to both revenue and expenses.
- The General Fund reported a fund balance this year of \$ 2,178,521.
- The District issued no new debt.

**OVERVIEW OF THE FINANCIAL STATEMENTS**

This annual report consists of three parts—management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are government-wide financial statements that provide both long-term and short-term information about the District's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the government, reporting the District's operations in more detail than the government-wide statements.
- The governmental funds statements tell how general government services were financed in the short term as well as what remains for future spending.
- Proprietary fund statements offer short- and long-term financial information about the activities the government operates like businesses, such as a print shop.
- Fiduciary fund statements provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others, to whom the resources in question belong.

Figure A-1, Required Components of the District's Annual Financial Report

The basic financial statements also include notes that explain some of the information in the basic financial statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the information in the basic financial statements. Figure A-1 shows how the required parts of this annual report are arranged and related to one another.

Figure A-2 summarizes the major features of the District's basic financial statements, including the portion of the District government they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis explains the structure and contents of each of the statements.

**GOVERNMENT-WIDE STATEMENTS**

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net

position includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's net position and how they have changed. Net position—the difference between the District's assets and liabilities—is one way to measure the District's financial health or position.

- Over time, increases or decreases in the District's net position are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the District, one needs to consider additional nonfinancial factors such as changes in the District's tax base and student population.

The government-wide financial statements of the District include the governmental activities. Most of the District's basic services are included here, such as instruction, extracurricular activities, curriculum and staff development, health services and general administration. Property taxes and grants finance most of these activities.

**FUND FINANCIAL STATEMENTS**

The fund financial statements provide more detailed information about the District's most significant funds—not the District as a whole. Funds are accounting devices that the District uses to keep track of specific sources of funding and spending for particular purposes.

- Some funds are required by State law and by bond covenants.
- The Board of Trustees establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

The District has the following kinds of funds:

- Governmental funds—Most of the District's basic services are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information on the subsequent page that explain the relationship (or differences) between them.

CAMPBELL INDEPENDENT SCHOOL DISTRICT  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
YEAR ENDED AUGUST 31, 2018

- Proprietary funds—Services for which the District charges customers a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both long-term and short-term financial information. We use internal service funds to report activities that provide supplies and services for the District's other programs and activities.
- Fiduciary funds—The District is the trustee, or fiduciary, for certain funds. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the District's fiduciary activities are reported in a separate statement of fiduciary net position. We exclude these activities from the District's government-wide financial statements because the District cannot use these assets to finance its operations.

**FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE**

The District's combined net position was \$ 3,185,641 at August 31, 2018.

Approximately \$ 73,014 of the District's restricted net position represents funds collected for debt retirement. These funds are restricted for the retirement of tax supported debt. Unrestricted net position represents resources available to fund the programs of the District next year.

**CHANGES IN NET POSITION**

The District's total revenues were \$ 3,340,981. 28% of the District's revenue comes from local property taxes (See Table A-2). 72% comes from state aid and federal grants.

The total cost of all programs and services was \$ 2,762,111. 48% of these costs are for instruction and instructional related services.

The District's tax collection percentage rate (current and delinquent base tax only) was 96.84%. The total tax collection percentage rate (base tax and penalty and interest) was 98.80%.

MANAGEMENT'S DISCUSSION AND ANALYSIS  
YEAR ENDED AUGUST 31, 2018

- Table A-3 presents the cost of selected functions as well as each function's net cost (total cost less fees generated by the activities and intergovernmental aid). The net cost reflects what was funded by state revenues as well as local tax dollars.
- The cost of all governmental activities this year was \$ 2,762,111.
- However, the amount that our taxpayers paid for these activities through local property taxes was only \$ 967,936.
- Some of the cost was paid by those who directly benefited from the programs, \$ 69,211, or
- By grants and contributions, \$ (168,743).

**FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS**

Revenues in the governmental funds totaled \$ 3,973,886. This represents a decrease of \$ 829 from the prior year revenues of \$ 3,974,715. The change represents a decrease in state sources.

Expenditures in the governmental funds totaled \$ 3,891,331. This represents an increase of \$ 190,096 from the prior year expenditures of \$ 3,701,235. The change represents an increase in overall operational costs.

**GENERAL FUND BUDGETARY HIGHLIGHTS**

Over the course of the year, the District revised its General Fund budget several times. With these adjustments, actual expenditures were \$ 533,633 below final General Fund budget amounts. The most significant positive variance occurred in the instructional category.

Resources available were \$ 234,528 above the final General Fund budgeted amount. The favorable variance was due to higher than expected state aid.

CAMPBELL INDEPENDENT SCHOOL DISTRICT  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
YEAR ENDED AUGUST 31, 2018

**ECONOMIC FACTORS**

The District's property valuation has increased slightly due to housing development in the District. Local property tax rates are restricted by state statute, without local elections, to \$ 1.04 for maintenance and operations. The state funding formula was modified in prior years to provide state funds to replace the lost local property tax revenue. This change in funding and other legislative changes could impact the District's financial operations, including cash flows.

Student population has remained steady in the District. The economic outlook for the area is for student population to remain steady. Housing has begun expanding slightly and could lead to a slight growth in student population. These economic conditions should allow the District to maintain constant funding and staffing levels.

The State has increased funding levels for the 2017-2019 biennium, which will affect the revenue levels of the District. With these increases in funding, the District anticipates monitoring expenditure levels to ensure financial stability remains strong.

A challenge to the State's funding system resulted in the system being held constitutional. Future legislative sessions could produce minor changes to funding for student populations. The legal process ended the challenges by the various interested parties including the State. State funding will continue under the present system until legislative changes occur.

**CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT**

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Hubert Bares, Business Manager for the District.

CAMPBELL INDEPENDENT SCHOOL DISTRICT  
NOTES TO THE FINANCIAL STATEMENTS  
YEAR ENDED AUGUST 31, 2018

A. Summary of Significant Accounting Policies

The basic financial statements of the Campbell Independent School District (District) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) applicable to governmental units in conjunction with the Texas Education Agency's Financial Accountability System Resource Guide (Guide). The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

1. Reporting Entity

The Board of School Trustees (Board), a seven member group, has governance responsibilities over all activities related to public elementary and secondary education within the jurisdiction of the District. The Board is elected by the public and as a body corporate has the exclusive power and duty to govern and oversee the management of the public schools of the District. All powers and duties not specifically delegated by statute to the Texas Education Agency (Agency) or to the State Board of Education are reserved for the Board, and the Agency may not substitute its judgment for the lawful exercise of those powers and duties by the Board. The District is not included in any other governmental "reporting entity" as defined by GASB in its Statement No. 14, "The Financial Reporting Entity." There are no component units included within the reporting entity.

The District receives funding from local, state and federal government sources and must comply with the requirements of these funding source entities.

2. Basis of Presentation – Basis of Accounting

a. Basis of Presentation

*Government-wide Statements* – The statement of net position (SNP) and the statement of activities include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenues and other nonexchange transactions.

The statement of activities (SOA) presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. The District does not allocate indirect expenses in the statement of activities. Program revenues include (a) fees, fines and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

*Fund Financial Statements* – The fund financial statements provide information about the District's funds, with separate statements presented for each fund category. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as subsidies and investment earnings, result from nonexchange transactions or ancillary activities.

CAMPBELL INDEPENDENT SCHOOL DISTRICT  
NOTES TO THE FINANCIAL STATEMENTS  
YEAR ENDED AUGUST 31, 2018

A. Summary of Significant Accounting Policies (Continued)

The District reports the following major governmental funds:

General Fund – This is the District’s primary operating fund. It accounts for all financial resources of the District except those required to be accounted for in another fund.

In addition, the District reports the following fund types:

Special Revenue Funds – The District accounts for resources restricted to or designated for specific purposes by the District or a grantor in a special revenue fund. Most Federal and some State financial assistance is accounted for in a special revenue fund and sometimes unused balances must be returned to the grantor at the close of specified project periods. The Board can commit specific types of resources to specific purposes which are included as special revenue funds.

Debt Service Fund – This fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs.

Capital Projects Fund – This fund is used to account for proceeds of long-term debt financing and revenues and expenditures related to authorized construction and other capital asset acquisitions. The fund also contains local funds transferred for capital acquisition and construction as well as debt retirement related to capital acquisition and construction.

Internal Service Funds – These funds are used to account for revenues and expenses related to services provided to parties inside the District. These funds facilitate distribution of support costs to the users of support services on a cost-reimbursement basis. Because the principal users of the internal services are the District’s governmental activities, this fund type is included in the “Governmental Activities” column of the government-wide financial statements.

Agency Funds – These funds are reported in the fiduciary fund financial statements. These funds are used to report student activity funds and other resources held in a purely custodial capacity (asset equal liabilities). Agency funds typically involve only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations, or other governments.

b. Measurement Focus – Basis of Accounting

*Government-wide, Proprietary and Fiduciary Fund Financial Statements* – These financial statements are reported using the economic resources measurement focus. The government-wide and proprietary fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place.

Nonexchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

*Governmental Fund Financial Statements* – Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available.

CAMPBELL INDEPENDENT SCHOOL DISTRICT  
NOTES TO THE FINANCIAL STATEMENTS  
YEAR ENDED AUGUST 31, 2018

A. Summary of Significant Accounting Policies (Continued)

The District considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year-end. Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the susceptible-to-accrual concept. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on long-term debt, which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of long-term debt and acquisitions under capital lease are reported as other financing sources.

When the District incurs an expenditure or expense for which both restricted and unrestricted resources may be used, it is the District's policy to use restricted resources first, then unrestricted resources.

Under GASB Statement No. 20, "Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund accounting," all proprietary funds will continue to follow Financial Accounting Standards Board (FASB) standards issued on or before November 30, 1989. However, from that date forward, proprietary funds will have the option of either 1) choosing not to apply future FASB standards (including amendments of earlier pronouncements), or 2) continuing to follow new FASB pronouncements unless they conflict with GASB guidance. The District has chosen not to apply future FASB Standards.

3. Budgetary Data

The official budget was prepared for adoption for the general, food service and debt service funds. The following procedures are followed in establishing the budgetary data reflected in the basic financial statements:

- a. Prior to August 20 of the preceding fiscal year, the District prepares a budget for the next succeeding fiscal year beginning September 1.
- b. A meeting of the Board is called for the purpose of adopting the proposed budget with public notice given at least 10 days prior to the meeting.
- c. Prior to the expenditure of funds, the budget is adopted by the Board.

After adoption, the budget may be amended through action by the Board. Budget amendments are approved at the functional expenditure level. All amendments are before the fact and reflected in the official minutes of the Board. Budgets are controlled at the function level by personnel responsible for organizational financial reporting. All budget appropriations lapse at the year end. Budget amendments throughout the year were not significant.

4. Encumbrance Accounting

Encumbrances for goods or purchased services are documented by purchase orders or contracts. Under Texas law, appropriations lapse at August 31, and encumbrances outstanding at that time are to be either canceled or appropriately provided for in the subsequent year's budget. End-of-year outstanding encumbrances that were provided for in the subsequent year's budget are:

General Fund	\$	-0-
Special Revenue Fund		-0-
Debt Service Fund		<u>-0-</u>
Total	<u>\$</u>	<u>-0-</u>

5. Financial Statement Amounts

Cash and Investments

The District pools cash resources of its various funds in order to facilitate the management of cash. Cash applicable to a particular fund is readily identifiable. The balance in the pooled accounts is available to meet current operating requirements. Cash in excess of current requirements is invested in various interest-bearing securities and disclosed as a part of the District's cash and temporary investments.

For the purpose of the statement of cash flows, highly liquid investments are considered to be cash equivalents if they have a maturity of three months or less when purchased.

Fund Equity

Governmental funds utilize a fund balance presentation for equity. Fund balance is categorized as nonspendable, restricted, committed, assigned or unassigned.

*Nonspendable fund balance* – represents amounts that cannot be spent because they are either not spendable form (such as inventory or prepaids) or legally required to remain intact (such as notes receivable or principal of a permanent fund).

*Restricted fund balance* – represents amounts with external constraints placed on the use of these resources (such as debt covenants, grantors, other governments, etc.) or imposed by enabling legislation. Restrictions may be changed or lifted only with the consent of resource providers.

*Committed fund balance* – represents amounts that can only be used for specific purposes imposed by a formal action of the District's highest level of decision-making authority, the Board. Committed resources cannot be used for any other purpose unless the Board removes or changes the specific use by taking the same formal action that imposed the constraint originally.

*Assigned fund balance* – represents amounts the District intends to use for specific purposes as expressed by the Board or an official delegated the authority. The Board has delegated the authority to assign fund balances to the Superintendent.

*Unassigned fund balance* – represents the residual classification for the general fund or deficit balances in other funds.

In circumstances where an expenditure is to be made for a purpose for which amounts are available in multiple fund balance classifications, the order in which resources will be expended is as follows: restricted fund balance, followed by committed fund balance, assigned fund balance, and lastly, unassigned fund balance.

The following schedule provides information about the specific fund balance classification by fund:

	General	Other Governmental	Total
NonSpendable			
Inventories	\$ -	\$ 7,294	\$ 7,294

Child Nutrition Program	-	4,470	4,470

A. Summary of Significant Accounting Policies (Continued)

Inventories

The purchase method is used to account for inventories of school supplies, athletic equipment and food products. Under this method supplies and materials are debited as expenditures when purchased.

Capital Assets

Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated capital assets are recorded at their estimated fair value at the date of the donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. A capitalization threshold of \$ 5,000 is used.

Capital assets are being depreciated using the straight-line method over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Lives</u>
Buildings and Improvements	15-50
Vehicles	5-10
Other Equipment	3-15

6. Receivable and Payable Balances

The District believes that sufficient detail of receivable and payable balances is provided in the financial statements to avoid the obscuring of significant components by aggregation. Therefore, no disclosure is provided which disaggregates those balances.

There are no significant receivables which are not scheduled for collection within one year of year end.

7. Interfund Activities

Interfund activity results from loans, service provided, reimbursements or transfers between funds. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures or expenses. Reimbursements occur when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers In and Transfers Out are netted and presented as a single "Transfer" line on the government-wide statement of activities. Similarly, interfund receivables and payables are netted and presented as a single "Internal Balances" line of the government-wide statement of net position.

8. Vacation, Sick Leave and Other Compensated Absences

District employees are entitled to certain compensated absences based on their length of employment. Sick leave accrues at various rates established by the State and adopted by the Board of Trustees. Sick leave does not vest, but accumulates and is recorded as an expenditure as it is paid.

9. Pensions

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Teacher Retirement System of Texas (TRS) and additions to/deductions from TRS's fiduciary net position have been determined on the same basis as they are reported by TRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

10. Other Post-Employment Benefits

The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expenses, and information about assets, liabilities and additions to/deductions from TRS Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit term. There are no investments as this a pay-as-you-go plan and all cash is held in a cash account.

11. Deferred Outflows and Inflows of Resources

The District implemented GASB Statement Number 68, *Accounting and Financial Reporting for Pensions* and GASB Statement Number 75, *Accounting and Financial Reporting for Postemployment Benefits and Other Pensions*. In addition to assets and liabilities, the government-wide Statement of Net Position and governmental fund Balance Sheet report separate sections for deferred outflows and deferred inflows of resources. Deferred outflows of resources represent a consumption of net position/fund balance that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred inflows of resources represent the acquisition of net position/fund balance that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. The District reports certain deferred inflows and outflows related to pensions on the government-wide Statement of Net Position. At the governmental fund level, earned but unavailable revenue is reported as a deferred inflow of resources. To the extent practical, this change in accounting principle is required to be reported as an adjustment to prior periods.

The District also implemented GASB Statement Number 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*, which amends the transition provisions of GASB 68. GASB 71 requires that, at transition, governments recognize a beginning deferred outflow of resources for pension contributions made subsequent to the measurement date of the beginning Net Pension Liability. Implementation is reflected in the financial statements and the prior period adjustment.

12. Use of Estimates

The preparation of financial statements in conformity with GAAP requires the use of management's estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could vary from these estimates.

13. Data Control Codes

Data control codes refer to the account code structure prescribed by the Agency in the *Guide*. The Agency requires the District to display these codes in its financial statements filed with the Agency in order to ensure accuracy in building a statewide database for policy development and funding plans.

14. Accounting System

In accordance with Texas Education Code, Chapter 44, Subchapter A, the District adopted and implemented an accounting system which at least meets the minimum requirements prescribed by the State Board of Education and approved by the State Auditor. The District's accounting system uses codes and the code structure presented in the accounting code section of the *Guide*. Mandatory codes are utilized in the form provided in that section.

B. Deposits, Securities and Investments

The District's funds are deposited and invested under the terms of a depository contract. The contract requires the depository to pledge approved securities in an amount significant to protect the District's day-to-day balances. The pledge is waived only to the extent of the dollar amount of Federal Deposit Insurance Corporation (FDIC) insurance. At year end, District cash deposits appear to have been properly covered by FDIC insurance or by pledged collateral held by the District's agent bank in the name of the District. Throughout the year it appears the deposits were completely covered by securities or other pledged collateral.

The District's investment policies and types of investments are governed by the Public Funds Investment Act. The Act requires specific training, reporting and establishment of local policies. The District appears to have been in substantial compliance with the requirements of the Act.

State statutes and local policy authorize the District to invest in the following types of investment goods:

- a. obligations of the U.S. or its agencies or instrumentalities,
- b. obligations of the State of Texas or its agencies,
- c. obligations guaranteed by the U.S. or State of Texas or their agencies or instrumentalities,
- d. obligations of other states, agencies or political subdivisions having a national investment rating of "A" or greater,
- e. guaranteed or secured certificates of deposit issued by a bank domiciled in the State of Texas, or
- f. fully collateralized repurchase agreements.

District investments include investments in TexPool, TexSTAR and the Lone Star Investment Pool which are all external investment pools. All TexPool, TexSTAR and Lone Star investments are reported at share price (fair value) and are presented as cash and investments. Statues also allow the District to invest in Certificates of Deposits. All investments owned at fiscal year-end are held by the District or its agent in the District's name.

*Texas Local Government Investment Pool (TexPool)* has been organized in conformity with the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code, and the Public Funds Investment Act, Chapter 2256 of the Texas Government Code. These two acts provide for the creation of public funds investment pools and permit eligible governmental entities to jointly invest their funds in authorized investments.

B. Deposits, Securities and Investments (Continued)

The Comptroller of Public Accounts (Comptroller) is the sole officer, director and shareholder of the Texas Treasury Safekeeping Trust Company, (Trust Company), which is authorized to operate TexPool. Pursuant to the TexPool Participation Agreement, administrative and investment services to TexPool are provided by Federated Investors, Inc. (Federated), under an agreement with the Comptroller, acting on behalf of the Trust Company.

The Comptroller maintains oversight of the services provided to TexPool by Federated. In addition, the TexPool Advisory Board advises on TexPool's Investment Policy and approves any fee increases. As required by the Public Funds Investment Act, the Advisory Board is composed equally of participants in TexPool and other persons who do not have a business relationship with TexPool who are qualified to advise TexPool.

TexPool and other persons who do not have a business relationship with TexPool who are qualified to advise TexPool.

The fund is rated AAAM by Standard & Poor's rating agency. This rating is the highest principal stability fund rating assigned by Standard & Poor's. This rating as well as the operational policies and procedures allow the fund to comply with the requirements of the Public Funds Investment Act.

*Texas Short Term Asset Reserve Program (TexSTAR)* has been organized in conformity with the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code, and the Public Funds Investment Act, Chapter 2256 of the Texas Government Code. These two acts provide for the creation of public funds investment pools (including TexSTAR) and authorize eligible governmental entities (Participants) to invest their public funds and funds under their control through the investment pools.

J. P. Morgan Investment Management, Inc. (JPMIM) and First Southwest Asset Management, Inc. (FSAM) serve as co-administrators for TexSTAR under an agreement with the TexSTAR board of directors (Board). JPMIM provides investment services, and FSAM provides participant services and marketing. Custodial, transfer agency, fund accounting and depository services are provided by JPMorgan Chase Bank and/or its subsidiary J.P. Morgan Investor Services Co.

The Board may establish separate Funds within TexSTAR from time to time. Participants choose the Funds in which their deposits are invested. Participants' assets in the Funds are represented by units of beneficial interest (units). The Board may issue an unlimited number of units in each Fund.

TexSTAR is rated AAAM by Standard & Poor's rating agency. This rating and the fund's operational settings allow the fund to comply with the requirement of the Public Funds Investment Act.

The *Lone Star Investment Pool* is an investment pool available to governmental entities. The pool was established under the guidance of the Texas Public Funds Investment Act. A board of directors made up of members of the pool is responsible for the overall operation of the pool. The Board has employed various third party organizations to assist in the operations. These third parties are as follows: American Beacon Advisors and BNY Mellon Cash Investment Strategies – Investment Managers, RBC Wealth Management – Investment Consultant, Bank of New York Mellon – Custodian, First Public – Administration. In combination with these third party organizations, the pool has received a AAAM rating from Standard and Poor's. This rating allows the pool to meet the standards required by the Texas Public Funds Investment Act.

In addition, the following is disclosed regarding coverage of combined cash balances on the date of highest balance:

- a. Name of bank: Alliance Bank, Sulphur Springs, Texas.
- b. Amount of bond and/or security pledged as of the date of the highest combined balance on deposit was \$ 1,222,358.
- c. Largest cash, savings and time deposit combined account balances amounted to \$ 660,104, and occurred during the month of October 2017.
- d. Total amount of FDIC coverage at the time of the highest combined balance was \$ 272,305.

GASB Statement No. 40 requires a determination as to whether the District was exposed to the following specific investment risks at year end and if so, the reporting of certain related disclosures:

a. Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The ratings of securities by nationally recognized agencies are designed to give an indication of credit risk. At year end, the District was not significantly exposed to credit risk.

b. Custodial Credit Risk

Deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the District's name.

Investment securities are exposed to custodial risk if the securities are uninsured, are not registered in the name of the government, and are held by either the counterparty or the counterparty's trust department or agent but not in the District's name. At year end, the District was not exposed to custodial credit risk.

c. Concentration of Credit Risk

This risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. At year end, the District was not exposed to concentration of credit risk.

d. Interest Rate Risk

This is the risk that changes in interest rates will adversely affect the fair value of an investment. At year end, the District was not exposed to interest rate risk.

e. Foreign Currency Risk

This is the risk that exchange rates will adversely affect the fair value of an investment. At year end, the District was not exposed to foreign currency risk.

CAMPBELL INDEPENDENT SCHOOL DISTRICT  
NOTES TO THE FINANCIAL STATEMENTS  
YEAR ENDED AUGUST 31, 2018

C. Property Taxes

Property taxes are levied by October 1, in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the October 1 levy date. On January 1 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties and interest ultimately imposed. Property tax revenues are considered available when collected within the current period, or expected to be collected soon enough thereafter to be used to pay liabilities of the current period.

Property taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. Allowances for uncollectibles within the General and Debt Service Funds are based upon historical experience in collecting property taxes. Section 33.05, Property Tax Code, requires the tax collector for the District to cancel and remove from the delinquent tax rolls a tax on real property that has been delinquent for more than 20 years or a tax on personal property that has been delinquent for more than 10 years. Delinquent taxes meeting this criteria may not be canceled if litigation concerning these taxes is pending.

The District levied taxes on property within the District at \$ 1.04 to fund general operations. The rates were levied on property assessed totaling \$ 92,134,923.

Capital Leases

The District is obligated under certain leases accounted for as capital leases. The leases recorded here meet the criteria of a capital lease as defined by Statement of Financial Accounting Standards No. 13, "Accounting for Leases," which defines a capital lease generally as one which transfers benefits and risks of ownership to the lessee.

The following schedule lists personal property leased:

Description	Implicit Interest Rate	Date of Agreement	Original Value Property
School Buses - Government Capital	2.25%	6/2/2016	\$ 170,520
Trinity 3 Technology - Apple Laptops	4.87%	8/1/2018	31,000

The lease terms call for annual payments over the life of the leases which do not extend beyond five years.

Commitments under capitalized lease agreements for facilities and equipment provide for minimum future lease payments as of year end, are as follows:

Year Ending August 31	Total Requirements
2019	\$ 47,150

F. Pension Plan

1. *Plan Description*

The District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). It is a defined benefit pension plan established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

CAMPBELL INDEPENDENT SCHOOL DISTRICT  
NOTES TO THE FINANCIAL STATEMENTS  
YEAR ENDED AUGUST 31, 2018

F. Pension Plan (Continued)

2. *Benefits Provided*

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description in (1) above.

3. *Contributions*

Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code section 821.006 prohibits benefit improvements, if as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

Employees' contribution rates are set in state statute, Texas Government Code 825.402. Senate Bill 1458 of the 83<sup>rd</sup> Texas Legislature amended Texas Government Code 825.402 for member contributions and established employee contribution rates for fiscal years 2014 thru 2017. The 83<sup>rd</sup> Texas Legislature, General Appropriations Act (GAA) established the employer contribution rates for fiscal years 2014 and 2015. The 84<sup>th</sup> Texas Legislature, General Appropriations Act (GAA) established the employer contribution rates for fiscal years 2017 and 2018.

**Contribution Rates**

	<u>2017</u>	<u>2018</u>
Member	7.7%	7.7%
Non-Employer Contributing Entity (State)	6.8%	6.8%
Employers	6.8%	6.8%

2018	Employer Contributions	\$	63,779
2018	Member Contributions	\$	161,193
2017	NECE On-Behalf Contributions	\$	123,265

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools and state agencies including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

F. Pension Plan (Continued)

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers are required to pay the employer contribution rate in the following instances:

On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.

During a new member's first 90 days of employment.

When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.

In addition to the employer contributions listed above, there are two additional surcharges an employer is subject to:

When employing a retiree of the Teacher Retirement System the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.

When a school district or charter school does not contribute to the Federal Old-Age, Survivors and Disability Insurance (OASDI) Program for certain employees, they must contribute 1.5% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

4. *Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions*

At August 31, 2018, the District reported a liability of \$ 686,601 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the collective net pension liability	\$ 686,601
State's proportionate share that is associated with the District	<u>1,205,111</u>
Total	<u><u>\$ 1,891,712</u></u>

The net pension liability was measured as of August 31, 2017 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer's proportion of the net pension liability was based on the employer's contribution to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2016 thru August 31, 2017.

At August 31, 2017 the employer's proportion of the collective net pension liability was 0.0021473316% which was an increase of 0.0001660919% from its proportion measured as of August 31, 2016.

*Changes Since the Prior Actuarial Valuation*

There were no changes to the actuarial assumptions or other inputs that affected measurement of the total pension liability since the prior measurement period. There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

For the year ended August 31, 2018, the District recognized pension expense of \$ 206,064 and revenue of \$ 91,921 for support provided by the State.

At August 31, 2018 the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual actuarial experience	\$ 10,045	\$ 37,027
Changes of actuarial assumptions	31,276	17,905
Differences between projected and actual investment earnings	-	50,038
Changes in proportion and differences between the employer's contributions and the proportionate share of contributions	<u>198,578</u>	<u>40</u>
Total as of August 31, 2017 measurement date	\$ 239,899	\$ 105,010
Contributions paid to TRS subsequent to the measurement date	<u>63,779</u>	<u>-</u>
Total at fiscal year end	<u>\$ 303,678</u>	<u>\$ 105,010</u>

The net amounts of the employer's balances of deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Fiscal Year Ending August 31</u>	<u>Amount</u>
2019	\$ 22,756
2020	66,584
2021	19,390
2022	6,126

5. *Actuarial Assumptions*

The total pension liability in the August 31, 2017 actuarial valuation was determined using the following actuarial assumptions:

Valuation Date	August 31, 2017
Actuarial Cost Method	Individual Entry Age Normal
Asset Valuation Method	Market Value
Single Discount Rate	8.00%
Long-term Expected Investment Rate of Return	8.00%
Inflation	2.50%
Salary Increases Including Inflation	3.50% to 9.50%
Payroll Growth Rate	2.50%
Benefit Changes During the Year	None
Ad hoc Post-Employment Benefit Changes	None

The actuarial methods and assumptions are based primarily on a study of actual experience for the four year period ended August 31, 2014 and adopted on September 24, 2015.

6. *Discount Rate*

The discount rate used to measure the total pension liability was 8.0%. There was no change in the discount rate since the previous year. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term rate of return on pension plan investments is 8%. The long-term expected rate of return on pension plan investments was determined using a building block method in which best-estimates ranges future real rates of return (expected returns, net pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the Systems target asset allocation as of August 31, 2017 are summarized on the next page:

G. Defined Other Post-Employment Benefit Plans

1. *Plan Description*

The employer participates in the Texas Public School Retired Employees Group Insurance Program (TRS Care). It is a multiple-employer, cost-sharing defined Other Post-Employment Benefit (OPEB) plan that has a special funding situation. The plan is administered through a trust by the Teacher Retirement System of Texas (TRS) Board of Trustees. It is established and administered in accordance with the Texas Insurance Code, Chapter 1575.

2. *OPEB Plan Fiduciary Net Position*

Detail Information about the TRS-Care's fiduciary net position is available in the separately-issued TRS Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the internet at <http://www.trs.state.tx.us/about/documents/cafr/pdf#CAFR>; by writing to TRS at 1000 Red River Street, Austin, TX 78701-2698; or by calling (512) 542-6592

3. *Benefits Provided*

TRS-Care provides basic health insurance coverage (TRS-Care 1), at no cost to all retirees from public schools, charter schools, regional education service centers and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible retirees and their dependents not enrolled in Medicare may pay premiums to participate in one of two optional insurance plans with more comprehensive benefits (TRS-Care 2 and TRS-Care 3). Eligible retirees and dependents enrolled in Medicare may elect to participate in one of the two Medicare health plans for an additional fee. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. The Board of Trustees is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052. There are no automatic post-employment benefit changes; including automatic COLAs.

G. Defined Other Post-Employment Benefit Plans (Continued)

The premium rates for the optional health insurance are based on years of service of the member. The schedule below shows the monthly rates for the average retiree with Medicare Parts A&B coverage, with 20 to 29 years of service for the basic plan and the two optional plans.

\* or surviving spouse

4. *Contributions*

Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and school districts based upon public school district payroll. The TRS Board of trustees does not have the authority to set or amend contribution rates.

Texas Insurance Code, section 1575.202 establishes the state's contribution rate which is 1.0% of the employee's salary. Section 1575.203 establishes the active employee's rate which is 0.65% of pay. Section 1575.204 establishes an employer contribution rate of not less than 0.25% or not more than 0.75% of the salary of each active employee of the public. The actual employer contribution rate is prescribed by the Legislature in the General Appropriations Act. The following table shows contributions to the TRS-Care plan by type of contributor.

	<u>2017</u>	<u>2018</u>
Active Employee	0.65%	0.65%
Non-Employer Contributing Entity (State)	1.00%	1.25%
Employers	0.55%	0.75%
Federal/Private Funding remitted by Employers	1.00%	1.25%
2018 Employer Contributions	\$ 22,515	
2018 Member Contributions	\$ 13,607	
2017 NECE On-Behalf Contributions	\$ 21,526	

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to (regardless of whether or not they participate in the TRS Care OPEB program). When employers hire a TRS retiree, they are required to pay to TRS Care, a monthly surcharge of \$ 535 per retiree.

TRS-Care received supplemental appropriations from the State of Texas as the Non-Employer Contributing Entity in the amount of \$ 15.6 million in fiscal year 2017 and \$ 182.6 million in fiscal year 2018.

5. *Actuarial Assumptions*

The total OPEB liability in the August 31, 2017 actuarial valuation was determined using the following actuarial assumptions:

The following assumptions and other inputs used for members of TRS-Care are identical to the assumptions used in the August 31, 2017 TRS pension actuarial valuation:

Rates of Mortality	General Inflation
Rates of Retirement	Wage Inflation
Rates of Termination	Expected Payroll Growth
Rates of Disability Incidence	

Additional Actuarial Methods and Assumptions:

Valuation Date	August 31, 2017
Actuarial Cost Method	Individual Entry Age Normal
Inflation	2.50%
Discount Rate	3.42%
Aging Factors	Based on pan specific experience Third-party administrative expenses related to the delivery of health care benefits are included in the age- adjusted claims costs.
Expenses	
Payroll Growth Rate	2.50%
Projected Salary Increases	3.50% to 9.50%
Healthcare Trend Rates	4.50% to 12.00%
Election Rates	Normal Retirement: 70% participation prior to age 65 and 75% participation after age 65
Ad hoc post-employment benefit changes	None

Other Information: There was a significant plan change adopted in fiscal year ending August 31, 2017. Effective January 1, 2018, only one health plan option will be offered and all retirees will be required to contribute monthly premiums for coverage. Assumption changes made for the August 31, 2017 valuation include a change to the assumption regarding the phase out of the Medicare Part D subsidies and a change to the discount rate from 2.98% as of August 31, 2016 to 3.42% as of August 31, 2017.

6. *Discount Rate*

A single discount rate of 3.42% was used to measure the total OPEB liability. There was a change of 0.44% in the discount rate since the previous year. Because the plan is essentially a “pay-as-you-go” plan, the single discount rate is equal to the prevailing municipal bond rate. The projection of cash flows used to determine the discount rate assumed that contributions from active members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the OPEB plan’s fiduciary net position was projected to not be able to make all future benefit payments of current plan members. Therefore, the municipal bond rate was applied to all periods of projected benefit payments to determine the total OPEB liability. The source of the municipal bond rate was Fixed-income municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index’s “20-year Municipal GO AA Index” as of August 31, 2017.

7. *Discount Rate Sensitivity Analysis*

The following schedule shows the impact of the Net OPEB Liability if the discount rate used was 1% greater than the discount rate that was used (3.42%) in measuring the Net OPEB Liability.

8. *Healthcare Cost Trend Rates Sensitivity Analysis*

The following presents the net OPEB liability of the plan using the assumed healthcare cost trend rate, as well as what the net OPEB liability would be if it were calculated using a trend rate that is one-percentage point lower or one-percentage point higher than the assumed healthcare cost trend rate.

	1% Decrease	Current Healthcare Cost Trend Rate	1% Increase
District's proportionate share of the net OPEB liability	\$ 1,191,495	\$ 1,431,053	\$ 1,745,384

9. *OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs*

At August 31, 2018 the District reported a liability of \$ 1,431,053 for its proportionate share of the TRS's Net OPEB Liability. This liability reflects a reduction for State OPEB support provided to the District. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

District's proportionate share of the collective Net OPEB Liability	\$ 1,431,053
State's proportionate share that is associated with the District	<u>1,800,482</u>
Total	<u>\$ 3,231,535</u>

The Net OPEB Liability was measured as of August 31, 2017 and the Total OPEB Liability used to calculate the Net OPEB Liability was determined by an actuarial valuation as of that date. The employer's proportion of the Net OPEB Liability was based on the employer's contribution to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2016 thru August 31, 2017

At August 31, 2017 the employer's proportion of the collective Net OPEB Liability was 0.0032908181%. Since this is the first year of implementation, the District does not have the proportion measured as of August 31, 2016. The Notes to the Financial Statements for August 31, 2016 for TRS stated that change in proportion was immaterial and, therefore, disregarded this year.

*Changes Since the Prior Actuarial Valuation* – The following were changes to the actuarial assumptions or other inputs that affected measurements of the Total OPEB liability since the prior measurement period:

There were no changes of benefit terms that affected measurement of the Total OPEB liability during the measurement period.

For the year ended August 31, 2018, the District recognized OPEB expense of \$ (1,075,262) and revenue of \$ (602,489) for support provided by the State.

At August 31, 2018, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to other post-employment benefits from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual actuarial experience	\$ -	\$ 29,874
Changes in actuarial assumptions	-	568,738
Differences between projected and actual investment earnings	217	-

Health Care

During the year ended, employees of the Campbell Independent School District were covered by a health insurance plan (the Plan). The District paid premiums of at least \$ 350 per month per employee and employees, at their option, authorized payroll withholdings to provide dependents' coverage under the Plan. All premiums were paid to Teacher Retirement System of Texas (Aetna). The Plan was authorized by Article 3.51-2, Texas Insurance Code and was documented by contractual agreement.

The contract between the Campbell Independent School District and Teacher Retirement System of Texas (Aetna) is renewable September 1 of each year and terms of coverage and premium costs are included in the contractual provisions.

Latest financial statements for Aetna are available for the year ended December 31, 2017 and have been filed with the Texas State Board of Insurance, Austin, Texas, and are public records.

Workers' Compensation

The District participates in the East Texas Educational Insurance Association Workers' Compensation Self-Insurance Joint Fund. The District is partially self-funded to a loss fund maximum of \$ 31,968 for the 17-18 fiscal year. Additionally, the District incurred fixed costs of \$ 8,493 for their share of claims administration, loss control, record keeping and cost of excess insurance.

Claims administration is provided by Claims Administrative Services, Inc. Reinsurance is provided for aggregate claim losses exceeding \$ 225,000. The fixed cost charge is based on total payroll paid by the District. Increases or decreases in the fixed costs will adjust subsequent year charges. Any additional charge has been recorded as a fund liability.

The accrued liability for workers' compensation self-insurance of \$ 47,082 includes \$ 16,412 of incurred but not reported claims. This liability is based on the requirements of GASB Statement No. 10, "Accounting and Financial Reporting for Risk Financing and Related Insurance Issues," which requires a liability for claims be reported if information indicates that it is probable that a liability has been incurred and the amount of loss can be reasonably estimated. The liability recorded is an undiscounted actuarial calculation.

Changes in the workers' compensation claims liability amounts for the periods of 2018 and 2017 are represented below:

	<u>2018</u>	<u>2017</u>
Beginning Claims Liability	\$ 24,555	\$ 29,804
Claims Incurred (Reduced)	26,843	(1,344)
Claims Paid	<u>(4,316)</u>	<u>(3,905)</u>
Ending Claims Liability	<u>\$ 47,082</u>	<u>\$ 24,555</u>

Unemployment Compensation Pool

During the year ended, the District provided unemployment compensation coverage to its employees through participation in the TASB Risk Management Fund (the Fund). The Fund was created and is operated under the provisions of the Interlocal Cooperation Act, Chapter 791 of the Texas Local Government Code. The Fund's Unemployment Compensation Program is authorized by Section 22.005 of the Texas Education Code and Chapter 172 of the Texas Local Government Code. All members participating in the Fund execute interlocal agreements that define the responsibilities of the parties.

The Fund meets its quarterly obligation to the Texas Workforce Commission. Expenses are accrued each month until the quarterly payment has been made. Expenses can be reasonably estimated; therefore, there is no need for specific or aggregate stop loss coverage for Unemployment Compensation pool members.

The Fund engages the services of an independent auditor to conduct a financial audit after the close of each plan year on August 31. The audit is accepted by the Fund's Board of Trustees in February of the following year. The Fund's audited financial statements as of August 31, 2017, are available at the TASB offices and have been filed with the Texas Department of Insurance in Austin.

Other Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2018, the District purchased commercial insurance to cover these liabilities. There were no significant reductions in coverage in the past fiscal year, and there were no settlements exceeding insurance coverage for each of the past three fiscal years.

I. Litigation

The District does not appear to be involved in any litigation as of year end.

J. Commitments and Contingencies

The District participates in numerous state and federal grant programs which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, if any, refunds of any money received may be required and the collectability of any related receivable at year end, may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying combined financial statements for such contingencies.

P. State Aid Reconciliation

The State provides various types of funding for local school districts as provided for in state statute. The following reconciliation presents funding earned by the District in each category presented. Because of the State's delay in reconciling the funding to local districts, the summary below represents an estimate of earnings. The settle-up with the State will occur some 9 to 10 months following the fiscal year end.

Funding is earned for: 1) Available – annual allotment based on prior year enrollment; 2) Foundation – annual allotment based on student attendance, property tax collections and valuations, and special student population; 3) Instructional Facilities Allotment – based on property wealth; and 4) Existing Debt Allotment – based on eligible debt, student attendance and property wealth. Various other sources are received but not reconciled here as these are the major sources of funding.

Q. Change in Accounting Principles

*Statement 75, Accounting and Financial Reporting for Postemployment Benefits and Other Pensions.*

The Statement addresses accounting and reporting for postemployment benefits other than pensions (OPEB). Various standards for recognizing measuring and reporting liabilities, deferred outflows and deferred inflows are implemented to achieve the financial accounting and reporting objectives. Note disclosures and other required supplemental information were expanded to provide additional insight into the financial implications of the OPEB.

*Statement 85, Omnibus 2017*

The Statement addresses a variety of technical corrections to previously issued statements that were identified during the implementation of the standards. Included are amendments to GASB Statement 75 that enhance the financial reporting requirements.

R. Prior Period Adjustments

*Government-wide Financial Statements*

The increase in net assets identified on Exhibit B-1 includes the following corrections of errors in prior periods or changes related to implementations of new accounting standards:

S. Negative Operating Grants and Contributions – Statement of Activities

Expense activity is required to be recorded by districts who are participants in cost-sharing pension and OPEB benefit plans with a special funding situation where non-employer contributing entities (NECE) also participate in contributions to the plans. TRS-retirement and TRS-care benefit plans are both cost-sharing plans with special funding situations. Therefore, on-behalf expense activity of the NECE must be recorded at the government-wide level of reporting on the Statement of Activities in accordance with GASB 68 and 75.

During the year under audit, the NECE expense was negative due to changes in benefits within the TRS-care plan. The accrual for the proportionate share of that expense was a negative on-behalf revenue and negative on-behalf expense. This resulted in negative revenue for operating grants and contributions on the Statement of Activities. According to guidance provided directly from GASB, this is the correct reporting.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION  
YEAR ENDED AUGUST 31, 2018

A. Budget

The official budget was prepared for adoption for all Government Fund Types. The budget was prepared in accordance with accounting practices generally accepted in the United States of America. The following procedures are followed in establishing the budgetary data reflected in the basic financial statements:

1. Prior to August 20 of the preceding fiscal year, the District prepares a budget for the next succeeding fiscal year beginning September 1. The operating budget includes proposed expenditures and the means of financing them.
2. A meeting of the Board is then called for the purpose of adopting the proposed budget after ten days' public notice of the meeting has been given.
3. Prior to September 1, the budget is legally enacted through passage of a resolution by the Board.

Once a budget is approved, it can be amended at function and fund level only by approval of a majority of the members of the Board. Amendments are presented to the Board at its regular meetings.

Each amendment must have Board approval. Such amendments are made before the fact, are reflected in the official minutes of the Board and are not made after fiscal year end as required by law.

Each amendment is controlled by the budget coordinator at the revenue and expenditure function/object level. Budgeted amounts are as amended by the Board. All budget appropriations lapse at year end.

Encumbrances for goods or purchased services are documented by purchase orders or contracts. Under Texas law, appropriations lapse at August 31, and encumbrances outstanding at the time are to be either cancelled or appropriately provided for in the subsequent year's budget. There were no end-of-year outstanding encumbrances that were provided for in the subsequent year's budget.

B. Defined Benefit Pension Plan

1. Changes of Assumptions

No changes in assumptions were made that affected the measurement of the total pension liability during the measurement period.

2. Changes of Benefit Terms

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.
